Dates are one of the most popular and healthy fruits in Kuwait. They grow on tall palm trees and are found in many farms, gardens, and homes across the country. Dates are small, sweet, and full of energy. They come in many types and colours such as dark brown, red, and yellow. People in Kuwait enjoy eating dates all year round.

They are important during the holy month of Ramadan when people break their fast with them.

Dates are not just delicious, they are also very good for the body. They are full of vitamins and natural sugar, which help people get energy and stay healthy. Farmers in Kuwait work hard to care for the palm trees. They water and cut the dead grass. That helps to keep them clean and protect them from insects. The dates are usually picked in the summer.

In the past, dates were sold to other countries. Today, they are still a big part of Kuwaiti life. Dates are often given as gifts and are a symbol of hospitality in Kuwaiti culture.
