A Journey of Helping Others

Before You Read

1 🗣️ **Discuss the following questions.**

  b. How did it make you feel?

2 📖 **Read the blog post "My Experience at the Cooperative Society" and complete the following tasks.**

My Experience at the Cooperative Society

Last summer, I decided to volunteer at our local cooperative society, also known as the co-op. I had often visited it with my family, but I never **realised** how important it was to our community until I joined as a volunteer. My teacher **persuaded** us to join in community service, and I **gladly** agreed because I thought it would be a great opportunity to help others.

Before starting, I learned that co-ops in Kuwait began when Law No. 24/1979 was **established** to ensure that people could buy daily goods at **fair** prices. What makes them special is that <u>they</u> are managed by local citizens from the same area. Everyone works together to serve the neighbourhood, which helps build trust and responsibility with its **residents**.

During my time at the co-op, I enjoyed working with other volunteers. We **put together** food **packages**, helped **elderly** shoppers, and organised small clean-up campaigns. It felt amazing to see how our teamwork and kindness could make such a big difference. I also noticed how the co-op helped schools, **charities**, and families in need, **demonstrating** that helping others does not always need to be big; it just needs to be from the heart.

What affected me the most was learning how much **impact** small actions can have. During the COVID-19 **pandemic**, for example, co-ops delivered food and gave out masks and cleaning products to protect people. They may seem like simple **contributions**, but to many people, they were **necessary**. I realised that if we all do our part, we can make our society stronger and kinder. **Volunteering** taught me that being a good citizen means caring for others, not just yourself. That is something **vital** to share with everyone.

The Unreal Life: Why We Should Not Believe Everything We See Online
Article by Dr. Noha Saad

In **recent** years, the rise of social media **influencers** has changed how people **define** success. They often **appear** to live perfect, happy lives, achieving their goals **effortlessly**. However, the **reality** behind these pictures is very different. Every photo **hides** hours of work and **pressure** to stay popular and look perfect all the time.

They carefully **select** their content to appear more successful than they truly are. They **edit** and retouch their photos, making followers believe in their endless travel and **wealth**. This can cause followers to compare themselves **unfairly** and lose confidence, making them feel they are unsuccessful.

The unreal lives of influencers are not only affecting themselves, but also the lives of young teenagers. Do you look at pictures of famous people and feel **insecure** about how you look? You are not the only one. In fact, studies show that many teenagers your age report that social media makes them feel worse about their image. Additionally, when you see those pictures, they try to trick your brain into feeling like you are not good enough, which might cause **depression**. Remember that real life is better than a picture, and you are amazing just the way you are.

True success cannot be measured by images, likes, or followers but by **honesty**, effort, and **emotional** balance. Therefore, we must ask ourselves: when you become a fan of an influencer, are you admiring their unreal life or their real success? It is time to look beyond filters and recognise the human reality behind the screen. We see, we admire, we compare, but we never forget what is real!

b. **Who do you agree with more about social media, Hamad or Dr. Noha? Why?**

Persuasive writing aims to convince the reader to agree with your opinion.

   a. show us how we can edit and retouch our personal photos.

   b. persuade us not to believe everything on social media.

   c. advise us to work hard to become social media influencers.

   d. inform us about the advantages of following famous people online.

Trust: The Power That Connects Us

1 **Discuss the following questions.**

  a. What does the word trust mean to you?

  b. Who is a person you trust the most? Why?

  c. Do you think it is easy or difficult to earn someone's trust? Why?

2 **Read the article and complete the tasks that follow.**

Why should you work to become a person others can trust? Trust is the **foundation** of every strong relationship, both at home and in society. Without it, teamwork fails, friendships **weaken**, and leadership loses its strength. Therefore, how can you earn people's trust?

Firstly, trust comes **mostly** from honesty. Ask yourself, "Who would you rather believe: someone who just talks, or someone who speaks with both truth and heart?" People **believe in** you when you tell the truth or when you do your job well. Even small actions, such as telling the truth or **admitting** mistakes, build **trustworthiness** over time. **Psychologists** also discovered that honest behaviour **activates** the brain's "trust circuits". In other words, the more truthful you are, the more others naturally feel safe around you. Isn't that what everyone wants, to feel safe, to be respected, and to be understood?

Another quality that builds trust is **empathy**. It is highly important to understand people's emotions. Showing empathy means using positive words, respecting others' **viewpoints**, and responding respectfully even when you disagree. People trust those who communicate kindly, both online and in person. For example, when someone is upset, an empathetic person listens carefully, shows **patience**, and avoids judging their feelings.

In today's digital world, being a trusted and reliable person does not stop in real life; it continues online. Every post, comment, or photo you share on social media tells others who you are. In addition, when we speak **sincerely**, respect others' opinions, and avoid sharing **false** information, we build real trust that lasts beyond the screen.

In conclusion, trust is built through honest actions, empathy, and respect, in both real life and the digital world. The way we speak, act, and respond reveals who we truly are to others. In the end, our behaviours, both offline and online, show others whether we are **reliable** and worthy of their trust. Trust builds us, trust guides us, trust protects us.

a. Write another suitable title for the passage. Your title should clearly show the main idea.

Think about one way you can show **honesty** and **empathy** online.

The Honest Shop Owner

Before You Read

1 Discuss the following questions.
- a. Do you think honesty is an important value? Explain.
- b. Why do you think the shop owner looks shocked in the second picture?

2 Read the passage and complete the following tasks.

Have you ever wondered why honesty matters so much in our lives? My name is Yusuf, and I own a small **fabric** shop. Today, I want to share a story that shows how honesty can guide us, protect our **reputation**, and bring peace to our hearts.

Every day, I greet my customers with kindness and respect. I aim to stay **humble** and fair because I follow the example of Prophet Muhammad (ﷺ), who was known for his honesty and strong character. He never tried **to deceive** anyone, and he always treated people well. When we follow his way, our choices become clear, and our actions become **meaningful**.

One morning, a new **shipment** arrived at my shop. While I was checking each colourful roll of fabric, I found a small **tear** in a piece of blue cloth. It was something a customer might **complain** about. I knew I could **secretly** sell it for a higher price, and no one would notice. But I stopped and asked myself: "Is **profit** more important than honesty?" The answer was simple: No!

When a woman came to buy the fabric, I showed her the tear and offered a **lower** price. She smiled with a sense of **relief** and said, "Thank you for telling me the truth." A week later, she **returned** with her family and told them, "This is the shop of the honest man." At that moment, my heart was filled with **joy** because I knew I had **addressed** the **situation** correctly.

Honesty is not just a rule; it is a gift that **applies** the teachings of Islam and leads to trust, respect, and success. When we make **intentional** choices to be honest, although it feels difficult, we **earn** the confidence of others, and Allah supports us.

In conclusion, I ask you: Will you choose honesty in every situation? Will you be the person others can trust? Choose honesty in your heart today, tomorrow, and always.

2 🗫 **Read the article and do the tasks that follow.**

Honesty and trustworthiness are important values in every community. People respect those who keep their word, do what is right, and treat others fairly. Many great leaders in history were remembered because they lived with honesty and strong character. One of the greatest examples is Prophet Muhammad (ﷺ), whose life continues to guide millions of people around the world.
